

Information about your debtor: strongly recommended!

check your partners before they become your debtors.

We have restructured and adjusted our tariffs for obtaining business information:

In case of court proceedings in Germany it will be important to have information about the business and financial situation of the debtor (company). You can find a table with our offers below. All following information are related only to Germans and German companies, registered in Germany.

For a better assessment of risks in the recovery of the claim and especially in the court proceedings, we strongly recommend obtaining information about the debtor's side.

What is the financial and economic situation of the debtor's side? Can the claim be paid and covered?

Appropriate information would provide you with the most realistic assessment possible of the chances of collection.

We work together with Germany's leading information services, in particular Creditreform, SCHUFA and Dun & Bradstedt, among others.

In any case, we recommend steps 1. and 2., as a total price: 40 EUR

The check of active business of the debtor (f.i. phone calls, fax), etc. is **free of charge**

1. check for debtor entries: Statement of assets: 30,00 EUR
